

Chaff Cardboard Cartridge (CCC 40MM)

Decoy System

Chaff Cardboard Cartridge
(CCC 40MM)

Chaff Cardboard Cartridge (CCC40MM)

The CCC40MM is a naval chaff cartridge and forms part of a defensive aids system to protect a group shipborne from radar guided threats by providing an expandable chaff payload as a suitable alternative and preferred target or decoy. The purpose of the decoy is seducing the radar guided missile away from the intended target such that it passes the target ship by an effective miss distance. Frequency cuts can be provided to suit ships .

CCC40MM is fast blooming and fitted for all weather conditions.
